

ST. JEROME'S UNIVERSITY

St. Jerome's University in the University of Waterloo

Department of Psychology

PSYCH 101, Section 003

Introductory Psychology

Thursday, 6:30pm-9:20pm, Room: SJ2 1004

INSTRUCTOR INFORMATION

Instructor: Jessica Wood
Office: Sweeny Hall (SH) 2110
Office Hours: Thursday 3-4pm
Email: jwood03@uoguelph.ca

CORRESPONDENCE WITH INSTRUCTOR

It is best to contact me via email or to come see me in person during office hours. When emailing, please include your first and last name and the course code in the subject line. [Email responses](#): If you do not hear back from me within 48 hours (excluding weekends), please resend your message. This is NOT an indication that I am ignoring you; more likely, this suggests that I did not receive your email, or that it got flagged as spam. **BEFORE EMAILING, PLEASE READ THROUGH THE COURSE OUTLINE CAREFULLY TO SEE IF YOUR QUESTION IS ANSWERED HERE.**

COURSE DESCRIPTION

Psychology is the study of human behaviour and experience. Introductory Psychology is a general survey course designed to provide you with an understanding of the basic concepts and techniques of modern psychology as a behavioural science. In this course we will explore the theoretical perspectives and associated research that enable us to ask critical questions and reach conclusions about human behaviour, thoughts, and relationships across the lifespan.

The goal of this course is to introduce you to the science of psychology. This course will provide you with an overview of the discipline of psychology, including key concepts, theoretical perspectives, empirical research, and scholars in the field. As this is an introductory course, we focus on breadth of material, rather than depth. This course offers a "sample" of some of the different sub-areas within psychology, that you can explore further in more specialized courses.

The textbook provides the foundational content of the course; the lectures are intended to flesh out certain concepts, bring in additional material, and stimulate your understanding of the

material in new ways. Testing will be based on both textbook and lecture material; therefore, attendance is highly recommended.

Note that this course contains an experiential learning component (that is, 'learning by doing'). This can be achieved either by participating in psychological research being conducted at the University of Waterloo (i.e., as a research study participant), or by completing an alternative (written) assignment. Read below for details.

COURSE OBJECTIVES

1. Recognize and understand the basic processes related to the human experience of thoughts, feelings, and behaviours.
2. Identify the foundations of conducting psychological science/research.
3. Recognize and differentiate various psychological theories.
4. Evaluate knowledge gained from psychological scientific inquiry against common knowledge and intuitive "truths" about human behaviour and experience.
5. Think critically about the complexity of interactions that impact your own and others' behaviours, thoughts, and emotions.
6. Relate psychological concepts and theories to real-world experiences in everyday life.

REQUIRED TEXT

Weiten, W. & McCann, D. (2019). Psychology: Themes and Variations, 5th Canadian Edition. Toronto, ON: Nelson Education.

Note 1: Older editions or other texts books should be used "at your own risk" – content and page/chapters numbers likely differ

Note 2: The course textbook is on reserve at the SJU Library Circulation Desk.

COURSE REQUIREMENTS AND ASSESSMENT

Due to the nature of introductory courses (focus on breadth rather than depth, large class sizes), you will be assessed almost entirely through tests. There are no written assignments. While the lecture material will be guided by the textbook, lectures will include additional materials, videos, and in-class exercises. Success in this course is facilitated by attending and actively engaging in the lecture.

<u>Assessment</u>	<u>Date of Evaluation</u>	<u>Weighting</u>
In-class Test #1	Thursday, February 6, 2019	38%
In-class Test #2	Thursday, March 12, 2019	38%
In-class Test #3	Thursday, April 2, 2019	20%
Experiential Learning	Ongoing	4%
Bonus Points	Ongoing	Up to 2%
<hr/>		
Total		100%

In-class Tests (96% total)

Testing will consist of three in-class tests conducted during class time. **The tests are not cumulative and there is no final exam.** The tests will include the material leading up to the test date (this includes assigned readings, film material, lecture material, and content generated in class discussions). The format of the tests will be multiple-choice.

Experiential Learning (4% total)

Students will participate in research opportunities offered through the Research Experience Group (REG) at the University of Waterloo (Option 1, see details below), or participate in alternate assignments (Option 2, see details below). Participation in these studies and the accumulation of credits will be monitored by the REG Coordinator. ANY QUESTIONS ABOUT PARTICIPATION IN RESEARCH (i.e., Option 1) SHOULD BE DIRECTED TOWARD THE REG COORDINATOR.

CONTACT PERSON: REG Coordinator, Email: regadmin@uwaterloo.ca, Phone: 519-888-4567 x32690, or in person at the REG Office (PAS 3013) -- Please call or email in advance to set up an appointment to ensure the Reg Coordinator is able to meet with you.

BONUS (up to 2% total)

These bonus marks can be earned by participating in the REG research studies (Option 1, see details below) or by completing the alternative assignment (Option 2, see details below).

Sona Participation and Research Experience Marks Information and Guidelines

Experiential learning is considered an integral part of the undergraduate program in Psychology. Research participation is one example of this, article review is another. A number of undergraduate courses have been expanded to include opportunities for Psychology students to earn grades while gaining research experience.

Since experiential learning is highly valued in the Department of Psychology, students may earn **up to 4%** of their final mark in this course through research experience (i.e., course work will make up 96% of the final mark and research experience will make up the other 4% for a maximum grade of 100%). In addition, for those students who wish to sample a wider range of these experiences, a further "**bonus**" of **up to 2%** may be earned and will be added to the final grade if/as needed to bring your final grade up to 100%. **In total, students may add up to 6% to their final grade.**

The two options for earning research experience grades (participation in research and article review) are described below. Students may complete any combination of these options to earn research experience grades.

Option 1: Participation in Psychology Research

Research participation is coordinated by the Research Experiences Group (REG). Psychology students may volunteer as research participants in lab and/or online (web-based) studies conducted by students and faculty in the Department of Psychology. Participation enables students to learn first-hand about psychology research and related concepts. Many students report that participation in research is both an educational and interesting experience. Please be assured that all Psychology studies have been reviewed and received ethics clearance through a University of Waterloo Research Ethics Committee.

How to earn extra marks for your Psychology course(s) this term by participating in studies ...

- You will earn "credits" which will be converted to "marks" (1 credit = 1%)
- You can schedule your LAB and/or ONLINE studies using the "Sona" website.
- **UP TO 50%** of your credits can be earned through ONLINE studies. The remaining need to be earned through in-lab participation.

Educational focus of participation in research

To maximize the educational benefits of participating in research, students will receive feedback information following their participation in each study detailing the following elements:

- Purpose or objectives of the study
- Dependent and independent variables
- Expected results
- References for at least two related research articles
- Provisions to ensure confidentiality of data
- Contact information of the researcher should the student have further questions about the study
- Contact information for the Director of the Office of Research Ethics should the student wish to learn more about the general ethical issues surrounding research with human participants, or specific questions or concerns about the study in which s/he participated.

Participation in LAB studies is worth 0.5 participation credits (grade percentage points) for each 30-minutes of participation. Participation in ONLINE studies is worth .25 credits for each 15-minutes of participation. Researchers will record student's participation and at the end of the term the REG Coordinator will provide the course instructor with a credit report of the total credits earned by each student.

How to participate?

Study scheduling, participation and grade assignment is managed using the SONA online system. All students enrolled in this course have been set up with a SONA account. You must get started early in the term.

For instructions on how to log in to your SONA account and for a list of important dates and deadlines please, as soon as possible go to:

[Participating/SONA information: How to log in to Sona and sign up for studies](#)

**** Please do not ask the Course Instructor or REG Coordinator for information unless you have first thoroughly read the information provided on this website.****

More information about the REG program in general is available at:

[Sona Information on the REG Participants website or you can check the Sona FAQ on the REG website homepage for additional information.](#)

Option 2: Article Review as an alternative to participation in research

Students are not required to participate in research, and not all students wish to do so. As an alternative, students may opt to gain research experience by writing short reviews (1½ to 2 pages) of research articles relevant to the course. The course instructor will specify a suitable source of articles for this course (i.e., scientific journals, newspapers, magazines, other printed media). *You must contact your TA to get approval for the article you have chosen before writing the review.* Each review article counts as one percentage point. To receive credit, you must follow specific guidelines. The article review must:

- **Be submitted before the [last day of lectures](#). Late submissions will NOT be accepted under ANY circumstances.**
- Be typed
- Fully identify the title, author(s), source and date of the article. A copy of the article must be attached.
- Identify the psychological concepts in the article and indicate the pages in the textbook that are applicable. Critically evaluate the application or treatment of those concepts in the article. If inappropriate or incorrect, identify the error and its implications for the validity of the article. You may find, for example, misleading headings, faulty research procedures, alternative explanations that are ignored, failures to distinguish factual findings from opinions, faulty statements of cause-effect relations, errors in reasoning, etc. Provide examples whenever possible.
- Clearly evaluate the application or treatment of those concepts in the article.
- Keep a copy of your review in the unlikely event we misplace the original.

COURSE SCHEDULE

Week	Date	Topic	Readings Due
1	January 9	Introduction to the course A Brief History and Introduction to Psychology	Chapter 1
2	January 16	The Scientific Study of Psychology The Biological Bases of Behaviour	Chapter 2 Chapter 3
3	January 23	Sensation and Perception Consciousness	Chapter 4 Chapter 5
4	January 30	Memory	Chapter 7

Week	Date	Topic	Readings Due
5	February 6	<p>PART A:</p> <p>6:30pm – 8:00pm: TEST #1</p> <hr/> <p>PART B: Lecture</p> <p>Learning and Conditioning</p>	<p>PART A: Test #1 Content: Chapters 1, 2, 3, 4, 5, 7, and Lecture Material</p> <hr/> <p>PART B: Chapter 6</p>
6	February 13	Motivation and Emotions Personality	Chapter 10 Chapter 12
	February 20	Reading Week- No class	
7	February 27	Cognitive Psychology: - Logic, Reasoning, Decision- making - Language and Thought - Intelligence	Chapter 8 Chapter 9
8	March 5	Developmental Psychology: Human Development Across the Lifespan	Chapter 11
9	March 12	<p>PART A:</p> <p>6:30pm – 8:00pm: TEST #2</p> <hr/> <p>PART B: Lecture</p>	<p>PART A: Test #2 Content: Chapters 6, 8, 9, 10, 11, 12, and Lecture Material</p> <hr/> <p>PART B: Chapter 13</p>

Week	Date	Topic	Readings Due
		Social Psychology: Close Relationships	
10	March 19	Social Psychology: Social Norms, Obedience, Conformity, Group Dynamics	Chapter 13
11	March 26	Psychological Disorders and Mental Health Treatment/Therapies	Chapter 15 Chapter 16
12	April 2	TEST #3	Test #3 Content: Chapters 13, 15, 16, and Lecture Material

POLICY ON LATE WORK, MISSED ASSIGNMENTS, AND MAKE-UP TESTS

Test will only be rescheduled under **very limited conditions** (i.e., **medical or religious circumstances**); it is your responsibility to read and abide by the following:

1. You must notify me **BEFORE** the test, by email, if you are unable to write at the scheduled time **due to medical or religious circumstances** (or at minimum the day of the test). Students who fail to do so will receive a grade of **ZERO** on the test.
2. You must provide appropriate documentation (see UW Policy Regarding Illness and Missed Tests - a UWaterloo Verification of Illness (VOI) form must be submitted) in order to have a test rescheduled.
3. Rescheduling is at the discretion of the course instructor. VOI form dates will weigh heavily in this decision (e.g., do not expect to write a make-up test one week after your Verification of Illness Form has expired). Tests will typically be scheduled within 2 days of the date on the form.

ATTENDANCE POLICY

Attendance will not be directly evaluated or monitored; however, academic success and achievement of the course goals are facilitated by strong attendance. Since this is not an online course, active engagement in the course components requires attendance.

ELECTRONIC DEVICE POLICY

In the spirit of creating a classroom environment conducive to listening and learning, I ask all students to restrict your laptop use during lectures to note-taking, and to silence your smartphones and other devices.

Do not record lectures without permission from the instructor.

OTHER IMPORTANT INFORMATION

Academic Integrity: In order to maintain a culture of academic integrity, members of the University of Waterloo community are expected to promote honesty, trust, fairness, respect, and responsibility. [Check www.uwaterloo.ca/academicintegrity/ for more information.]

Grievance: A student who believes that a decision affecting some aspect of their university life has been unfair or unreasonable may have grounds for initiating a grievance. Read the St. Jerome's University Policy on Student Petitions and Grievances, www.sju.ca/sites/default/files/upload_file/PLCY_AOM_Student-Petitions-and-Grievances_20151211-SJUSCapproved.pdf. When in doubt, please be certain to contact the St. Jerome's Advising Specialist, Student Affairs Office, who will provide further assistance.

Discipline: A student is expected to know what constitutes academic integrity, to avoid committing an academic offence, and to take responsibility for their actions. [Check www.uwaterloo.ca/academicintegrity/ for more information.] A student who is unsure whether an action constitutes an offence, or who needs help in learning how to avoid offences (e.g., plagiarism, cheating) or about "rules" for group work/collaboration should seek guidance from the course instructor, academic advisor, or the Associate Dean. When misconduct has been found to have occurred, disciplinary penalties will be imposed under the St. Jerome's University Policy on Student Discipline, www.sju.ca/sites/default/files/PLCY_AOM_Student-Discipline_20131122-SJUSCapproved.pdf. For information on categories of offences and types of penalties, students should refer to University of Waterloo Policy 71, Student Discipline, www.adm.uwaterloo.ca/infosec/Policies/policy71.htm. For typical penalties, check the Guidelines for the Assessment of Penalties, www.adm.uwaterloo.ca/infosec/guidelines/penaltyguidelines.htm.

Appeals: A decision made or penalty imposed under the St. Jerome's University Policy on Student Petitions and Grievances (other than a petition) or the St. Jerome's University Policy on Student Discipline may be appealed if there is a ground. A student who believes they have a ground for an appeal should refer to the St. Jerome's University Policy on Student Appeals, www.sju.ca/sites/default/files/PLCY_AOM_Student-Appeals_20131122-SJUSCapproved.pdf.

Note for students with disabilities: AccessAbility Services, located in Needles Hall (Room 1401) at the University of Waterloo, collaborates with all academic departments to arrange appropriate accommodations for students with disabilities without compromising the academic integrity of

the curriculum. If you require academic accommodations to lessen the impact of your disability, please register with AccessAbility Services at the beginning of each academic term, www.uwaterloo.ca/accessability-services/.

Mental Health Services

All of us need a support system. The faculty and staff in Arts encourage students to seek out mental health support if they are needed.

On Campus

- Counselling Services: counselling.services@uwaterloo.ca / 519-888-4567 ext. 32655
- [MATES](#): one-to-one peer support program offered by Federation of Students (FEDS) and Counselling Services
- Health Services Emergency service: located across the creek from Student Life Centre

Off campus, 24/7

- [Good2Talk](#): Free confidential help line for post-secondary students. Phone: 1-866-925-5454
- Grand River Hospital: Emergency care for mental health crisis. Phone: 519-749-4300 ext. 6880
- [Here 24/7](#): Mental Health and Crisis Service Team. Phone: 1-844-437-3247
- [OK2BME](#): set of support services for lesbian, gay, bisexual, transgender or questioning teens in Waterloo. Phone: 519-884-0000 extension 213

Full details can be found online on the Faculty of Arts [website](#)

Download [UWaterloo and regional mental health resources \(PDF\)](#)

Download the [WatSafe app](#) to your phone to quickly access mental health support information

Copyright and Course Material: Lectures and course materials, including power point presentations, tests, outlines, and similar materials are protected by copyright. Faculty Members are the exclusive owners of copyright for those materials they create. Students may take notes and make copies for their own use. Students may not allow others to reproduce or distribute lecture notes and course materials publicly (whether or not a fee is charged) without the express written consent of the Faculty Member. Similarly, students own copyright in their own original papers and exam essays. If a faculty member is interested in posting a student's answers or papers on the course web site the faculty member should ask for the student's written permission. (Adapted from University of Maryland and Kings at the University of Western Ontario)
